

Figure 1

Figure 1 shows a series of vertical bars representing the percentage of respondents who answered "yes" to various questions related to their knowledge of the effects of alcohol on driving. The x-axis lists the following questions:

- Q1: Is it safe to drink and drive?
- Q2: Can you drink and still be able to drive safely?
- Q3: How much alcohol can you drink before it affects your ability to drive?
- Q4: Does drinking alcohol make you more likely to get into an accident?
- Q5: Does drinking alcohol make you more likely to lose control of your car?
- Q6: Does drinking alcohol make you more likely to get pulled over by police?
- Q7: Does drinking alcohol make you more likely to get arrested?
- Q8: Does drinking alcohol make you more likely to get injured or killed?
- Q9: Does drinking alcohol make you more likely to harm others?
- Q10: Does drinking alcohol make you more likely to damage property?
- Q11: Does drinking alcohol make you more likely to cause a traffic jam?
- Q12: Does drinking alcohol make you more likely to cause a fire?
- Q13: Does drinking alcohol make you more likely to cause environmental damage?
- Q14: Does drinking alcohol make you more likely to cause social problems?
- Q15: Does drinking alcohol make you more likely to cause economic problems?
- Q16: Does drinking alcohol make you more likely to cause health problems?
- Q17: Does drinking alcohol make you more likely to cause family problems?
- Q18: Does drinking alcohol make you more likely to cause community problems?
- Q19: Does drinking alcohol make you more likely to cause national problems?
- Q20: Does drinking alcohol make you more likely to cause global problems?

The y-axis represents the percentage of respondents who answered "yes," ranging from 0% to 100%. The bars show varying levels of agreement across the different questions.
